Career Objective

Seeking an entry level Software Development role where I can apply my knowledge of full stack web development, backend engineering, databases, and AI based applications to solve real world problems. Passionate about learning modern technologies, building scalable software, and contributing effectively to organizational growth while continuously improving my technical and professional skills.

Educational Qualifications

Degree and Year of passing	Institute / University	Board	Marks / CGPA attained
B. Tech (CSE) 2024-28	Gandhi Institute of Engineering and Technology University, Gunupur	GIET University, Odisha-	6.66
+2 Science in 2024	Seven hills residential school	CBSE	58
10 th in 2022	Seven hills residential school	CBSE	75

Training / Certification

- **Mahanadi Coalfields Limited (MCL)** – Industrial Internship Certificate (2026)
- **Central Tool Room & Training Centre (MSME) Government of India** · Internship Bhubaneswar (2025)
- Certificate of Completion: **AI Fluency Framework & Foundations** – Anthropic (2026)
- Certificate of Completion: **Claude 101** – Anthropic (2026)
- **Python Full Stack Development with Project Virtual Internship** – United Latino Students Association (2026)
- **Introduction to Cybersecurity** – Cisco Networking Academy (2024)
- **Cybersecurity Fundamentals** – IBM SkillsBuild (2024)
- **Career Essentials in Cybersecurity** – Microsoft & LinkedIn Learning (2024)
- **Cybersecurity Foundations** – LinkedIn Learning (2024)
- **Microsoft Copilot for Security** – LinkedIn Learning (2024)
- **Cybersecurity Awareness: Cybersecurity Terminology** – LinkedIn Learning (2024)
- **The Cybersecurity Threat Landscape** – LinkedIn Learning (2024)
- **HP LIFE** – Introduction to Cybersecurity Awareness
- **ChatGPT Bootcamp** – Let's Upgrade
- **Coding Ninjas – Ninja Slayground 2.0** Coding Challenge

Achievements and Extracurricular activities

- Successfully completed multiple industry certifications in Cybersecurity and AI.
- Built AI Powered Civic Grievance Management Platform (CivicSetu).
- Developed real time Chat Application using Django Channels and WebSockets.
- Developed Weather Forecast Web Application using HTML, CSS and JavaScript.
- Active participant in coding and software development projects.

Technical Skills

- REST APIs
- Python
- Django
- JavaScript
- MySQL
- REST APIs
- Git & GitHub
- Data Structures & Algorithms
- Object-Oriented Programming (OOP)

Soft Skills Object

- Communication
- Leadership
- Adaptability
- Time Management
- Teamwork
- Problem Solving

Position of Responsibility

Team Lead – Academic Projects

- Led a team of 3 members in the design, development, and successful execution of multiple software development projects.
- Planned project architecture, assigned tasks, and monitored progress to ensure timely completion.
- Coordinated backend development, database design, API integration, and version control using Git & GitHub.
- Managed team communication, resolved technical challenges, and ensured effective collaboration throughout the project lifecycle.
- Prepared project documentation, presentations, and technical reports while maintaining coding standards and project quality.

Internship Project Details

Name	Description
Web Developer InternMahanadi Coalfields Limited (MCL), Sambalpur	Developed a real-time messaging platform using Python, Django, Django Channels, WebSockets, HTML, CSS, JavaScript, and MySQL. Implemented secure user authentication, instant messaging, and real-time communication features. Developed Skills – Django, WebSockets, Python, MySQL, Full-Stack Web Development, Authentication, REST APIs.

Prompt Engineering InternEduSkills Foundation (AICTE Virtual Internship)	Completed a 10-week Prompt Engineering internship focused on Generative AI, Large Language Models (LLMs), prompt optimization, context engineering, and AI-driven problem solving. Developed Skills – Prompt Engineering, Generative AI, LLMs, AI Applications, Context Engineering.
Python Full Stack Developer InternEduSkills Foundation (AICTE Virtual Internship)	Completed a 10-week Python Full Stack Development internship. Built full-stack applications using FastAPI, REST APIs, databases, authentication, and React fundamentals. Developed Skills – Python, FastAPI, REST APIs, MySQL, Authentication, React.js.
Cyber Security Intern PreppRight EdTech Pvt. Ltd.	Completed Cyber Security training with practical exposure to network security, ethical hacking fundamentals, vulnerability assessment, penetration testing, and threat analysis. Developed Skills – Cyber Security, Ethical Hacking, Network Security, Vulnerability Assessment, Risk Analysis.
AI/ML InternCentral Tool Room & Training Centre (CTTC), MSME Government of India	Completed an Artificial Intelligence and Machine Learning internship involving data preprocessing, feature engineering, model development, and evaluation using Python and Scikit-learn. Developed Skills – Python, Machine Learning, NumPy, Pandas, Scikit-learn, Data Visualization.

Project Details

PROJECT & TECHNOLOGY	DESCRIPTION & KEY SKILLS
CIVICSETU – AI POWERED CIVIC ENGAGEMENT PLATFORM TECH STACK: PYTHON, DJANGO, DJANGO REST FRAMEWORK, MYSQL, HTML, CSS, JAVASCRIPT	Led the development of an AI-powered civic grievance management platform that enables citizens to submit complaints through text, images, and voice. Implemented AI-based complaint categorization, priority prediction, duplicate detection, department routing, complaint tracking, role-based authentication, and an analytics dashboard. Key Skills: Django, DRF, REST APIs, MySQL, AI Integration, Authentication, Database Design, Full-Stack Development.
FINNTRACK PRO – PERSONAL FINANCE MANAGEMENT SYSTEM TECH STACK: REACT, TAILWIND CSS, NODE.JS, EXPRESS.JS, POSTGRESQL (NEON), VERCEL, RENDER	Built a full-stack personal finance management application to manage income, expenses, budgets, savings, and financial goals. Developed RESTful APIs using Express.js, designed a responsive React interface with Tailwind CSS, integrated PostgreSQL (Neon), and deployed the application on Vercel and Render. Key Skills: React, Node.js, Express.js, PostgreSQL, REST APIs, Authentication, Deployment.
STOCK MARKET PREDICTION SYSTEM TECH STACK: PYTHON, TENSORFLOW, PANDAS, NUMPY, MATPLOTLIB, YFINANCE	Developed a deep learning-based stock market prediction system using LSTM neural networks to forecast stock price trends. Collected historical market data through the yFinance API, performed preprocessing and feature engineering, trained predictive models, and visualized prediction results. Key Skills: Python, TensorFlow, Deep Learning, Machine Learning, Data Analysis, Data Preprocessing.

CHATAPP – REAL-TIME MESSAGING PLATFORM TECH STACK: PYTHON, DJANGO, DJANGO CHANNELS, WEBSOCKETS, MYSQL, HTML, CSS, JAVASCRIPT	Developed a real-time messaging platform featuring secure authentication, one-to-one and group chat, typing indicators, online presence, notifications, and instant messaging using Django Channels and WebSockets. Key Skills: Django, Django Channels, WebSockets, MySQL, REST APIs, Authentication, Full-Stack Development.
NEOSKY – WEATHER FORECAST WEBSITE TECH STACK: HTML5, CSS3, JAVASCRIPT, OPENWEATHER API	Designed and developed a responsive weather forecasting web application that provides live weather information, including temperature, humidity, wind speed, and weather conditions through OpenWeather API integration. Key Skills: HTML5, CSS3, JavaScript, REST API Integration, Responsive Web Design.

Personal Details

Date of Birth	11/04/2006
Gender	Male
Father's Name	Mr. DWARIKA SAHU
Address	Modipada ,Sambalpur, Odisha
Alternate phone number	+918984058748
Language Known	English, Hindi ,Odia
Interests & Hobbies	Playing outdoor games ,reading ,coding

Place: Sambalpur, Odisha

Date: 05/08/2026

Signature
